in a Compact,
Affordable Unit***

**The
industry's
standard
in beverage
control systems . . .**

BERG
Multi-Beverage Systems

All-Bottle™ 704

Total accountability ... in Berg's affordable, compact, easy-to-use liquor control unit.

As the manager/owner of your property, don't be chained to your bar because of accountability concerns. Let Berg be your representative behind the bar — when you're not present. Know that every drink poured will be accounted for with the **All-Bottle 704™**, the modern successor to previous "*standards of the industry*" from Berg.

Combining the latest technology with Berg's innovative engineering provides a very easy to use, reliable and affordable control system for any size establishment. And with the Berg System, your customers are assured that they are getting a consistent drink every time.

Features:

- Offers **FOUR pre-set portion sizes** — adjustable from 1/8 to 10 ounces, for each price code.
- Reads **up to seven different price codes** — using either the standard or fast-pour style of Berg's price coded pourers.
- **Get pour counts on demand** — with backlit LCD display or optional serial printer.
- **Permits pour-delay/restart function** — restart a pour by keeping bottle inverted for more than 2 seconds after initial pour.
- **Mechanical keyswitch lockout** — for additional after hours security.
- **Standard ECR (Parallel) register interface** — that will not permit a pour if ECR cable is disconnected.
- **Standard POS (Serial) sales terminal interface** — assures that all pouring activity is recorded at the sales terminal.
